

AUTO LIQUIDATION ACKNOWLEDGMENT

The undersigned ("Customer") has entered into a Customer Agreement with Dorman Trading LLC ("Dorman") to open one or more accounts of Customer and to permit Customer to use an online trading platform to trade their account. All provisions of the Customer Agreement shall remain in full force and effect.

Dorman offers platforms that can be set to auto liquidation and Customer desires to trade with Dorman using auto liquidation.

1- Auto Liquidation

In the event that the Customer's account liquidating value equals or is less than \$460, Dorman may auto liquidate any or all of the open positions in the account. The auto liquidation function will send liquidating (closing) market orders to the exchange, resulting in the closing of any or all open positions for the Customer's account. Customer acknowledges and agrees to his/her account being auto liquidated at the current market price. If for any reason, positions are unable to be liquidated, Customer remains liable for the positions and for adverse market movements affecting the account. Further, the Customer is responsible to pay any debit balance that may result from the account being auto liquidated.

2- Principal Risks of Auto Liquidation

Dorman can liquidate an account without prior notice to a Customer. This is especially the case in auto liquidation. There are several risk factors associated with auto liquidation. For instance, an account could be automatically liquidated if Dorman has received wrong data from the exchanges or that there is a keypunch error in recording the data. Dorman is not responsible for wrong data it receives from exchanges nor is Dorman responsible for late, lost, misdirected, misdelivered, incomplete, illegible or unintelligible orders; unavailable network connections; failed, incomplete, garbled or delayed computer transmissions; keypunch errors; online failure or other technical malfunctions or disturbances. If the account value changes overnight, the account could be liquidated upon the market open. Market volatility could cause an account to be auto liquidated on short or relatively no notice to Customer. All other risk associated with trading is present even though Dorman may exercise its rights to auto liquidate.

3- Auto Liquidation Fees

In the event that the Customer's account is auto liquidated, Dorman will charge a fee to the Customer.

The undersigned agrees, acknowledges, and understands the foregoing and agrees to be bound by the terms of this acknowledgement.
